: UPWING CE Cases with Operational Ramifications in Austria

We note that two recently reported UPWING CE cases, AGAVE and ABEKDOTS, have operational ramifications in Austria of which, according to our records, the Austrian Station has not been informed. It is believed that the most effective manner of accomplishing coordination on such matters is for your case to inform the Austrian Station directly, particularly since this has been proven in the past to be a very workable procedure. In the interest of adhering to a uniform procedure and precluding possible duplication of effort, we did not take it upon ourselves to coordinate these cases from here; therefore, we request that you take the necessary action to inform the Austrian Station.
